Response to Amendment

Page 2

1. In response to the amendment filed March 14, 2003, the amendment after final has been entered and the finality of the last office action has been withdrawn.

A new action on the merits follows.

Reissue Application

2. This reissue application was filed without the required offer to surrender the original patent or, if the original is lost or inaccessible, an affidavit or declaration to that effect. The original patent, or an affidavit or declaration as to loss or inaccessibility of the original patent, must be received before this reissue application can be allowed. See 37 CFR 1.178.

Failure to surrender the original patent as required will result in a delay in the allowance of this reissue application

Reissue Declaration

3. The supplemental reissue declaration filed October 15, 2002 is acceptable.

Interference

4. Claims 30 and 31 are rejected under 35 U.S.C. 135(b) as not being made prior to one year from the date on which U.S. Patent No. 5,687,799 was granted. See *In re McGrew*, 120 F.3d 1236, 1238, 43 USPQ2d 1632,1635 (Fed. Cir. 1997) where the

Court held that the application of 35 U.S.C. 135(b) is not limited to *inter partes* interference proceedings, but may be used as a basis for *ex parte* rejections.

Please see MPEP 2306 and MPEP 1449.02.

Claim Rejections - 35 USC § 102

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.
- 6. Claims 1, 6, 7, 8, 14, 15, 21, 22, 23, 25, 29, 30 and 31 are rejected under 35 U.S.C. 102(e) as being clearly anticipated by Greenfield et al (US Patent Number 5.687.799).

Allowable Subject Matter

7. Claims 2-5, 9-13, and 16-20 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

8. Applicant's arguments filed March 14, 2003 have been fully considered but they are not persuasive.

Applicant argues that there is no requirement that an applicant has to copy a claim of a patent to provoke an interference, and that an interference may be declared between an application and a patent if the application and the patent are claiming the same patentable invention.

Applicant has not considered 35 USC 135(b) which states that the Applicant who intends to provoke an interference with a patent must claim the same or substantially the same invention within one year of the issue date of said patent. The Examiner does not believe there is any exception to this statute.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Russell D. Stormer whose telephone number is (571) 272-6687. The examiner can normally be reached on Monday through Friday, 9 AM to 4 PM.
